

## April 4, 2020 Alcona County Siren Test

**This will be a Directed Net - - Only Transmit when directed by Net Control (Stan Darmofal, W8SZ)!**

### **Procedure:**

- Net Control will begin Check-Ins at about 12:45 PM (Check-in from your assigned location) on 147.04 MHz Repeater (145.49 MHz Backup Repeater)
- Net Control will have all stations synchronize your watches with a 5 Second countdown a few minutes before the 1PM starting time
- Net Control & the 911 Director (Jeff Brackett or Backup 911 employee) will countdown the Siren Activation (5 seconds down to activate) at 1PM
- You will provide the **Following Report** when requested by Net Control **following** the complete test:
  - Synchronized Time Siren is **First Heard**; for example 1:02PM. NOTE: There may be a significant delay for each location
  - Synchronized Time Siren is **Last Heard**; for example 1:08PM. NOTE: The Siren may automatically shut-off after a few minutes
  - **Last Heard Distance** from the Siren location in **tenths of miles**; you should immediately drive away from the Siren Location as soon as the Siren is heard

**Note: If you cannot provide the Report via radio, then phone it in by calling 724-0911**

<u>Siren Location</u>	<u>Callsign</u>	<u>Name</u>	<u>First Heard</u> <u>(Minutes after activation)</u>	<u>Last Heard</u> <u>(Minutes after activation)</u>	<u>Last Heard Distance</u> <u>(Approximate tenths of miles)</u>	<u>Comment</u>
Harrisville	W8SZ	Stan Darmofal				
Lincoln	KE8IBK	Mike Maturen				
Mikado	N8AVX	Jim Smith
